

Best Of SanDiegoVille | Our 20 Favorite Sandwiches In San Diego

There's a certain art to constructing sandwiches that seems to elude many makers in San Diego, resulting in a mostly-misinformed customer base that may not fully understand the potential a sandwich can have. I know that this sounds like East Coast snobbery, but it's all about that meat & filling-to-bread ratio, and many spots seem to lack on the filling. I have been recommended many sandwich-centric spots around town and, more often than not, best I can say is, "it's pretty good...for San Diego." With that said, there are at least two dozen San Diego sandwiches that I've come to know and truly love. Here is our list of our 20 favorite spots to grab a sandwich around America's Finest City.
